

## Accessories

Accessory	Description	Options	Part Number
Air Screen Kit	Assists in preventing insects from entering and damaging the internal components of the drive	All models, date code 18B and newer	575214902
		SD 50 date code 18A and older	226550902
		SD 15, SD 20, SD 30, date code 18A and older	226550901
AMR Input Filter	Remedies electrical noise that can affect automated meter readers used by utility companies	SD 15, SD 20 Connect	226030901
Duplex Alternator Cable Kit	Communication cable kit required to use the built-in Duplex Alternator function	10 ft	226895901
		50 ft	226895902
		100 ft	226895903
Enhanced Display Board Replacement Kit	Replacement board for drives with a damaged display	All models	226540913
Enhanced Pressure Input Board Replacement Kit	Replacement board for drives that have experienced a surge on the input board	All models	226540903
Filter (Input)	Filter used on the input side of drive to help eliminate interference NEW: Reduces interference with LED lighting and other sensitive electronics	All Models	225198901
		23A / 3HP (SD20 and SD30)	226115922
		36A / 5HP (All models)	226115923
Filter (Output)	Filter used on the output side of the drive to help eliminate interference	All Models	225300901
Filter (Surge Capacitor)	Capacitor used on the service panel to help eliminate power interference	All Models	225199901
IGF Input Filter	Reduces electrical noise from ground currents in soil with high conductivity	All Models	226035901
Lightning Arrestor	Single-phase (Input power)	Single-phase (Input power)	150814902
Moisture Sensor Kit	External sensor device that stops the drive when water is detected	All SD Connect models	226770901
NEMA 3R Fan Replacement Kit	Replacement Fan	SD 15 Connect models	226545904
		SD 20, SD 30, models	226545905
		SD 50 Connect models	226545903
Pressure Sensor 25-80 PSI	Adjusts pressure from 25-80 psi (2-lead cable)	All models	226941901
Pressure Sensor (High: 75-150 psi, NSF 61 rated)	Adjusts pressure from 75-150 psi (2-lead cable)	All models	225970901
Pressure Transducer	4-20mA pressure transducer with 10 ft cable	100 PSI	226905902
		150 PSI	226905903
		200 PSI	226905904
Pressure Transducer / Isolator Kit	4-20mA analog pressure transducer and isolator (includes 10 ft cable).	100 PSI	226905912
Sensor Cable Kit - Direct Burial	Designed to be run in a trench underground without the use of conduit to surround it (4-leaded cable)	10 ft (3 m)	225800901
		30 ft (9 m)	225800902
		100 ft (30.5m)	225800903
Sensor Cable Kit - Outdoor	100 ft of 22 AWG cable (2-lead cable)	All models	223995902
Tank Drawdown Kit	Enables Drawdown feature when using a pressure sensor rather than a transducer	All models	225770901
Transducer Cable Kit	Outdoor rated cable to connect transducer to drive	10 ft	226910901
		25 ft	226910902
		50 ft	226910903
		100 ft	226910904
		150 ft	226910905
		200 ft	226910906
