**Accessories**

Accessory	Detail	Options	Part Number
Analog Pressure Transducer Kit	4-20mA pressure transducer with 25 ft cable	100 PSI 200 PSI	226905902 226905904
Analog Pressure Transducer Cable Kit	Outdoor rated cable to connect transducer to drive	10 ft 25 ft 50 ft 100 ft 150 ft 200 ft	226910901 226910902 226910903 226910904 226910905 226910906
Pressure Sensor 25-80 PSI	Adjusts pressure from 25-80 psi (2-lead cable)	All SD Connect Plus models	226941901
Pressure Sensor (High: 75-150 psi, NSF 61 rated)	Adjusts pressure from 75-150 psi (2-lead cable)	All SD Connect Plus models	225970901
Pressure Sensor Cable Kit -Outdoor	100 ft of 22 AWG cable (2-lead cable)	All SD Connect Plus models	223995902
PT100 for 6" Motors	Temperature sensor for 6" submersible motors	All SD Connect Plus models	305327903
Multidrive Cable Kit	Communication cable kit required to use the built-in MultiDrive function	10 ft 50 ft 100 ft	226895901 226895902 226895903
Moisture Sensor Kit	External sensor device that stops the drive when water is detected	All SD Connect Plus models	226770901
Control Board Replacement Kit	Replacement Control Board for drives with a damaged display, buttons, or terminal blocks.	All SD Connect Plus models	224759901
Internal Fan Replacement Kit	Contains replacement fans for both the internal stirring fan and output filter cooling fan.	All SD Connect Plus <b>Frame 2</b> units with model numbers ending with -0723, -1023, -1043, -1543, and -2043.	224759902
External Fan Replacement Kit	Contains two replacement external cooling fans as a pre-assembled unit.		224759904
Internal Fan Replacement Kit	Contains replacement fans for both the internal stirring fan and output filter cooling fan.	All SD Connect Plus <b>Frame 3</b> units with model numbers ending with -1523, -2543, and -3043.	224759903
External Fan Replacement Kit	Contains two replacement external cooling fans as a pre-assembled unit.		224759905
Replacement Conduit Plate Kit	Replacement conduit plate with knockouts. Contains the same knockout sizes and locations as the standard conduit plate preinstalled on the drive.	All SD Connect Plus <b>Frame 2</b> units with model numbers ending with -0723, -1023, -1043, -1543, and -2043.	224759906
		All SD Connect Plus <b>Frame 3</b> units with model numbers ending with -1523, -2543, and -3043.	224759907
Blank Conduit Plate Kit	Replacement blank conduit plate without knockouts. May be used to customize conduit hole size and location.	All SD Connect Plus <b>Frame 2</b> units with model numbers ending with -0723, -1023, -1043, -1543, and -2043.	224759908
		All SD Connect Plus <b>Frame 3</b> units with model numbers ending with -1523, -2543, and -3043.	224759909
Filter (Surge Capacitors)	Capacitor used on the service panel to help eliminate power interference	All SD Connect Plus models	225199901
Lightning Arrestor	Single-phase (Input power)	Single-phase (Input power)	150814902
