Accessories

Accessory	Detail	Options	Part Number
Air Screen Kit	Assists in preventing insects from entering and damaging the internal components of the drive		226115920
Pressure Transducer	4-20mA pressure transducer with 10 ft cable	150 PSI 200 PSI	226905903 226905904
Pressure Transducer/Isolator Kit	4-20mA analog pressure transducer and isolator (includes 10 ft cable).	100 PSI	226905912
Transducer Cable Kit	Outdoor rated cable to connect transducer to drive	10 ft 25 ft 50 ft 100 ft 150 ft 200 ft	226910901 226910902 226910903 226910904 226910905 226910906
Conduit Grounding Kit	Provides a means to ground metal conduit when used in with a nonmetallic enclosure	1/2" 3/4"	224471901 224471902
Duplex Alternator	Allows a water system to alternate between two parallel pumps controlled by separate drives		5850012000
Filter (Input/Output)	Dedicated filter box for drive systems to help eliminate electrical interference		226115910
Filter (Surge Capacitors)	Capacitor used on the service panel to help eliminate power interference		225199901
Lightning Arrestor	Single-phase (Input power)		150814902
Fan Replacement Kit	Replacement Fan		226115915
Pressure Sensor 25-80 PSI	Adjusts pressure from 25-80 psi (2-lead cable)		226941901
Pressure Sensor (High: 75-150 psi, NSF 61 rated)	Adjusts pressure from 75-150 psi (2-lead cable)		225970901
Sensor Cable Kit - Outdoor	100 ft of 22 AWG cable (2-lead cable)		223995902
Sensor Cable Kit - Direct Burial	Designed to be run in a trench underground without the use of conduit to surround it (4-leaded cable)	10 ft (3 m) 30 ft (9 m) 100 ft (30.5 m)	225800901 225800902 225800903

Applicable Standards

Agency Safety Listings:

- UL 61800-5-1
- CSA C22.2 No. 274

Enclosure Rating:

- UL 50
- UL 50E
- NEMA Type 3R
- IP23
